## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Dusbabek et al. (5,968,069). Dusbabek et al. disclose a catheter having a support region as claimed (see Figs. 5- 30).

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sullivan et al. (6,607,551) disclose a stent delivery system including a catheter section comprising a corrugated section for stent retention.
